

A Butterfly Grows Up

I began as an egg this tiny.
Inside the egg, I became
a caterpillar.

1

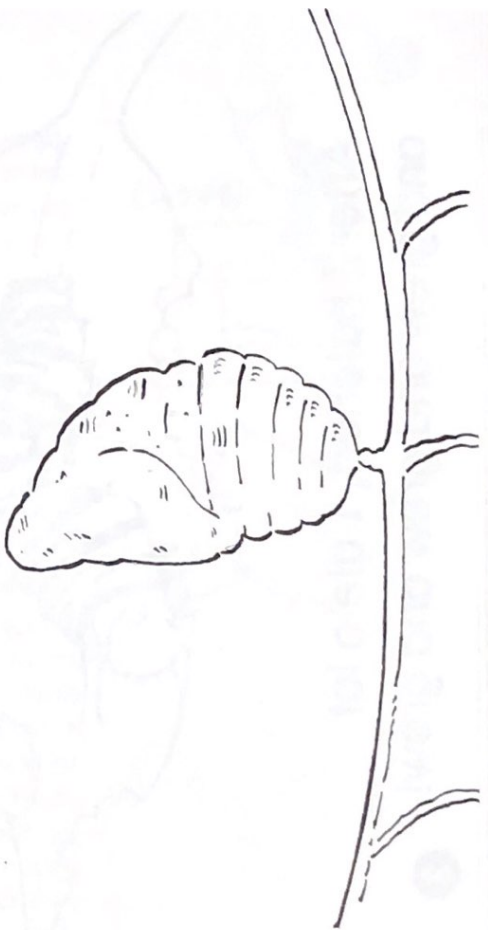

After I hatched, I ate a lot
and grew and grew and grew!

2

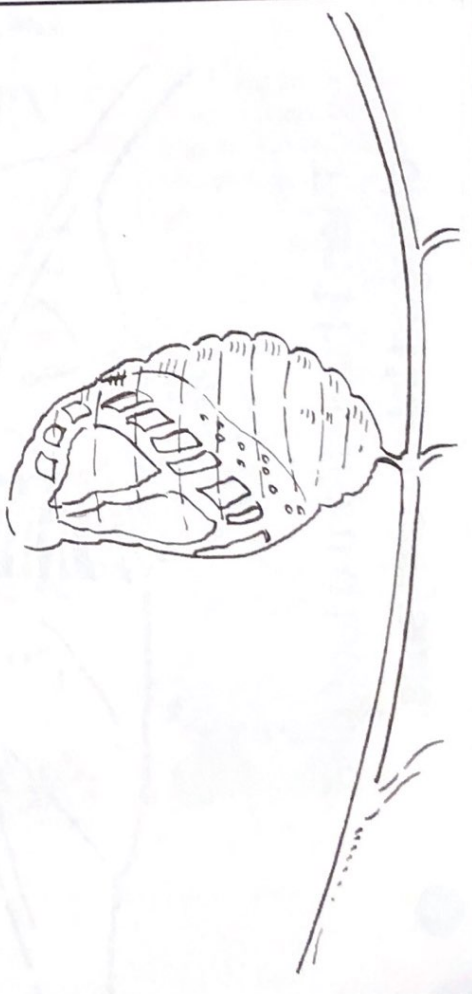

Then I hung from a leaf and
changed into a chrysalis.

3

Inside the chrysalis,
I was very busy changing!

4

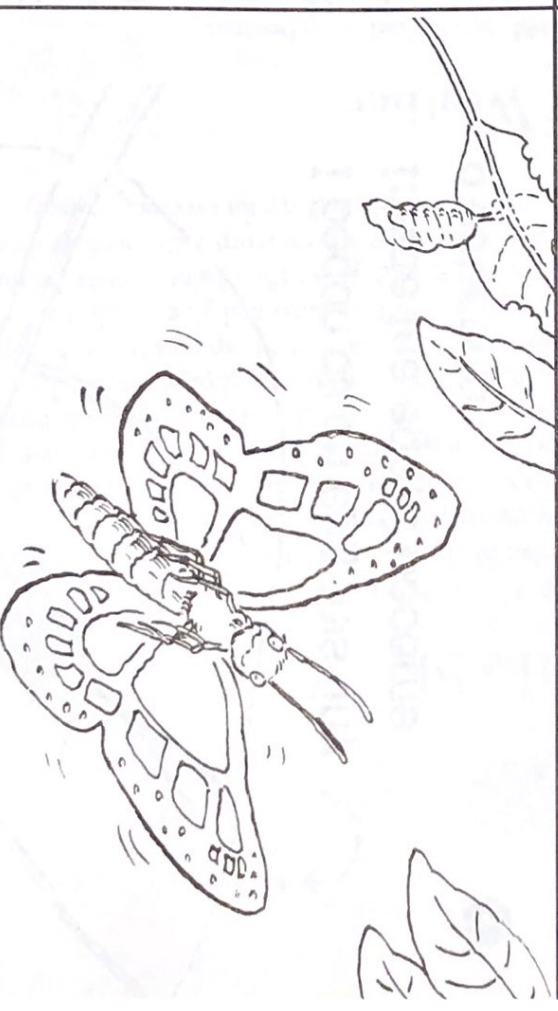

I turned different colors.
I grew wings.

5

Then guess what happened?

6

I became a beautiful butterfly!
